

MEMORANDUM

Agenda Item No. 9(K)(1)(A)

TO: Honorable Chairperson Barbara Carey-Shuler, Ed.D.
and Members, Board of County Commissioners

DATE: May 25, 2004

FROM: Robert A. Ginsburg
County Attorney

SUBJECT: CITT disapproval of:
Non-Exclusive Professional
Services Agreements to
provide groundwater,
surface water and soil
contamination cleanup
services for Miami-Dade
County facilities using
federal funding, Project
No. E03-DERM-01

The Commission awarded these two contracts on April 13th with authorization for the County Manager to increase the contract ceilings from \$500,000 up to five million if the dollar cap in Section 2-10.4 of the Code is amended.

Because the contracts will be funded with transit surtax proceeds, the Citizens' Independent Transportation Trust (CITT) was required to review these awards.

On April 28th, the CITT adopted a resolution disapproving the awards to the extent the awards authorized an increase in the contract ceilings above \$500,000. A copy of the CITT's resolution is attached.

In light of the CITT's disapproval, the Commission has the following options:

1. Reaffirm its award by two-thirds vote of the Commission's membership; or
2. Accept the CITT's action, and by majority vote, amend the awards to limit the contract ceilings to \$500,000. The contracts would then become effective with the decreased contract ceilings.

RESOLUTION NO. 04-027

RESOLUTION DISAPPROVING AWARDS OF TWO (2) PROFESSIONAL SERVICES AGREEMENTS (PSA) BY THE BOARD OF COUNTY COMMISSIONERS (BCC) FOR PROJECT NO. E03-DERM-01 WHICH DELEGATE TO THE COUNTY MANAGER AUTHORITY TO INCREASE THE \$500,000 CEILING AMOUNT OF EACH PSA UNDER CERTAIN CONDITIONS; AND RECOMMENDING THE BCC AWARD PSA'S FOR PROJECT NO. E03-DERM-01 IN AN AMOUNT NOT TO EXCEED \$500,000 EACH, AS PERMITTED UNDER EXISTING COUNTY CODE

WHEREAS, the Citizens' Independent Transportation Trust (CITT) recognizes the need for the services proposed to be provided through the two professional services agreements submitted by the Department of Environmental Resource Management, on behalf of Miami-Dade Transit; and

WHEREAS, these services are valuable and further the goals of the People's Transportation Plan (PTP); and

WHEREAS, the BCC's approval of an increase of the PSA award ceiling to \$5 million is contingent on the amendment of the County Code, which has not occurred; and

WHEREAS, postponing the increase in the award ceiling to \$5 million until such time as the County Code has been amended to permit such, would cause no delay to the implementation of the PTP

NOW, THEREFORE, BE IT RESOLVED BY THE CITIZENS' INDEPENDENT TRANSPORTATION TRUST, that this Trust disapproves the award of two (2) professional services agreements by the Board of County Commissioners for Project No. E03-DERM-01, which delegate to the County Manager authority to increase the \$500,000 ceiling amount of each PSA under certain conditions; and recommends the BCC to award two (2) professional services agreements for Project No. E03-DERM-01, in an amount not to exceed \$500,000 each, as permitted under existing County Code.

The foregoing resolution was offered by Miles Moss , who moved its adoption. The motion was seconded by James Reeder and upon being put to vote, the vote was as follows:

Agenda Item No. 7(D)(1)(G)

R#409-04

SUBJECT: Non-Exclusive Professional
Services Agreements to provide
Groundwater, Surface Water and
Soil Contamination Cleanup
Services for Miami-Dade County
Facilities using Federal Funding,
Project No. E03-DERM-01

This item was amended at the March 11, 2004 Transportation Committee to delete Section 3 in the original resolution that stated if during the initial term of the agreements executed under authority of this resolution, the County Code is amended to increase the allowable maximum for A&E contracts (other than continuing contracts) for projects constituting a grouping of minor or substantially related activities, the County Manager is authorized to increase the amount of such agreements up to the amended cap and/or not to exceed \$5,000,000 per agreement, whichever is less.

RECOMMENDATION

It is recommended that the Board of County Commissioners approve the attached resolution authorizing the execution of two (2) non-exclusive professional services agreements, with the firms listed on the attached award recommendation, to provide Groundwater, Surface Water and Soil Contamination Cleanup Services for Miami-Dade County Facilities using Federal Funding, Project No. E03-DERM-01. Each agreement will have a maximum compensation of \$500,000 and an effective term of three (3) years, with two (2) one-year renewal options with no additional compensation. These agreements will replace the previous E95-DERM-05 agreements, which expired April 1, 2000.

The consultant selection, approved by the Board on January 23, 2003, was for two (2) agreements of \$5,000,000 each. However, Section 2-10.4(1)(e)2 of the Miami-Dade County Code (Code), as currently worded, limits the ability to group non-project specific professional A&E services to an amount substantially below the advertised agreement amount of \$5,000,000. Therefore, the amount of the agreement attached to this resolution is within the current Code limitation. Although, the agreements original intent included associated remedial and clean-up services, it is now the intent of the County to better utilize these agreements by addressing mostly study and/or design associated work. Actual remedial and clean-up services will be done through an independent bidding process.

Following the successful negotiation of agreements with both firms, the Miami-Dade Transit Department requested that the Department of Environmental Resources Management (DERM) procure at least two more firms under Project No. E03-DERM-01 in order to support the environmental tasks necessary for the Phase II Metrorail projects of the People's Transportation Plan (Attachment A). Therefore, the resolution authorizes that in the event that additional capacity is needed in excess of the combined amount of the two approved agreements, the County Manager may negotiate with up to two (2) more firms, based on the firms' rankings by the Selection Committee, and subsequently award said agreements following successful negotiation.

BACKGROUND

On January 23, 2003, the Board approved the advertisement of two (2) professional services agreements to provide Groundwater, Surface Water and Soil Contamination Cleanup Services for Miami-Dade County Facilities using Federal Funding under Project No. E03-DERM-01.

Following the Consultant Selection Committee Report of July 1, 2003, the County Manager's memo of July 15, 2003 approved the selection of the two (2) top ranked firms and authorized negotiation of agreements with these firms. After the successful negotiation of agreements with both firms, the Negotiation Committee Report of November 4, 2003 recommended the execution of the two Non-Exclusive Professional Services Agreements. Based on the foregoing, I recommend proceeding with the award of these two agreements to the firms authorized in my memorandum of July 15, 2003.

ADMINISTRATION

The subject professional services agreements will be used to perform diverse environmental professional services for compliance and cleanup tasks under federal funding provisions at Miami-Dade County owned and/or operated sites. The Miami-Dade Transit Department is anticipated to be the primary "user department" of these agreements.

DERM will administer the agreements and be responsible for routing eligible tasks through the Equitable Distribution Program (EDP) and for the use of Miscellaneous Construction Contracts to perform the construction for non-emergency projects less than \$1,000,000 dollars, as applicable. DERM will distribute the work among the firms as evenly as possible, with consideration of any factors affecting such distribution being justified by DERM, and with priority being accorded to the two firms listed on the attached award recommendation to assure such firms are utilized to the full amount of their contracts before work is assigned to any additional firms.

The county departments utilizing the services of the consultants must approve the award of the work and all costs before DERM's issuance of any work orders. The Miami-Dade Transit Department will verify and monitor compliance with the 20% DBE participation goal of the work. Miami-Dade Transit work authorizations will be funded from multiple sources based on available funding at the time. Funding sources may include Federal, State, Local and Transit Sales Surtax. Every effort will be made to make maximum use of federal matching dollars. All uses of funds will be consistent with the latest People's Transportation Plan Pro forma.

✍ 5

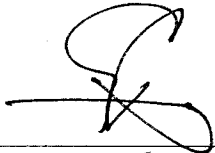

Since proceeds from the Charter County Transit System Sales Surtax levied pursuant to Section 29.121 of the Code of Miami-Dade County may be used to pay for all or some part of the cost of this contract, no award of this contract shall be effective and thereby give rise to a contractual relationship with the County unless and until the following have occurred: 1) the County Commission awards the contract, and such award becomes final (either by expiration of 10 days after such award without veto by the

Mayor, or by Commission override of a veto); and, 2) either, i) the Citizens' Independent Transportation Trust (CITT) has approved same, or, ii) in response to the CITT's disapproval, the County Commission re-affirms its award by two-thirds (2/3) vote of the Commission's membership and such reaffirmation becomes final.

MIAMI-DADE TRANSIT DEPARTMENT LETTER

Mr. John Renfrow, P.E.
Director
DERM
33 SW 2nd Ave.
Miami, FL 33130

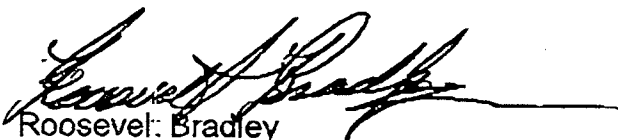

Dear Mr. Renfrow:

As you know, under Professional Services Agreement (PSA) No. E03-DERM-01, the negotiations took place with two (2) firms, Cherokee Enterprise and Peer Consulting, in early November 2003. Each PSA provides up to \$5 million for a total of \$10 million for environmental services. Based on the previously projected environmental work at the existing transit facilities estimated to be between six (6) to seven (7) million dollars, the selection of two (2) consulting/construction firms appeared to be adequate. The decision to procure these PSAs was made prior to the approval of the half-penny sales tax in November 2002.

However, additional PSAs need to be procured to support the environmental clean up tasks for the Phase II Orange Line projects of the People's Transportation Plan (PTP). We estimate that the number of parcels to be acquired could exceed three hundred (300) and the environmental phase-I and phase-II tasks, including potential clean up costs, may add up to several million dollars. The current PTP project schedules indicate that the right-of-way acquisition is to commence in July of this year. Therefore, I am requesting DERM to procure at least two more consulting/construction firms to support the PTP program.

In order to avoid any further delays, and to implement the outstanding crucial environmental projects that are past due, I am requesting the negotiated PSAs with the two selected firms be forwarded to the Board of County Commissioners for approval and that the addition of more firms not be allowed to delay the two contracts already negotiated.

Sincerely,

Roosevelt Bradley
Director
